

SEABRIDGE GOLD

Seabridge Gold Inc. is seeking a Site Operations Manager to join our Operations team.

Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

Location

Iskut project located near Stewart, BC.

Position Summary

We have two vacancies for this role that will oversee all site activities and ensure efficient and effective management of site logistics, contractor activities, and project management while providing the necessary support on environmental compliance, health, and safety protocols. This role reports to the Project Director.

Key Responsibilities

Manage the day-to-day operational aspects of the site, to ensure exploration success, smooth functioning of operational activities and adherence to contracts, safety and environmental regulations, and represent Seabridge for communication with support contractors at site. This role reports to the Director, Projects and takes guidance on the direction of the project from the Senior Geologist. This role is the BC Mine Manager Designate onsite and has the associated authority, duties, and responsibilities.

More specifically:

Exploration:

- Manage the drill and drill support contractors to facilitate the exploration program.
- Overseeing the planning and execution of projects, ensuring compliance with the Mines Act
- Managing teams and ensuring safety of equipment and personnel
- Provide strategic and logistical support to exploration teams, ensuring seamless field operations and contributing to operational performance improvements.

Project Management:

- Implement and oversee Seabridge Gold's contractor and risk management program.
- Manage site camp operations by planning and overseeing project logistics, resource allocation, and inventory/supply chain management, facilitate successful support of exploration activities.
- Maintain continuous coordination between internal teams and external parties for project execution, including management of camp services and project site logistics.
- Directly manage site contractors (especially the contractor responsible of camp services), ensuring all operations comply with contractual obligations and Seabridge's environmental, health, and safety standards.
- Oversee the Risk and Contract Management process at site.

Operational Excellence:

- Proactively address contractor-related conflicts & issues to maintain a positive working environment & high service quality.
- Handle operational troubleshooting, developing, and implementing policies and procedures to optimize site efficiency. Manage site orientation and onboarding practices in coordination with environment.
- Holding regular coordination meetings between departments.
- Manage the Community statistics and KPI reporting responsibilities for the site.
- Oversee onsite Helicopter operations along with ensuring fuel coding and fuel tracking is completed daily,
- Ensure Camp contractor tracks incinerator waste, water consumption and fuel usage daily.

Education, Skills and Experience

- Bachelor's degree (diploma may be considered if support with experience) in Environmental Science, Mining, or related field.
- Relevant certifications in project management or mining operations would be advantageous.
- Mine supervisor certification
- Eligible to work in Canada
- Minimum of 5 years of experience in site operations and camp management within the mining and exploration industry.
- Demonstrated familiarity with drill programs.
- Demonstrated leadership abilities, capable of managing site operations encompassing logistics, camp contractors, procurement, and emergency response.
- Effective communication skills, with experience in managing multiple contractors and engaging in community relations.
- Proficiency in MS Office suite; familiarity with project management software and database management is beneficial.
- Proven problem-solving capabilities, evidenced by a history of enhancing operational efficiency

Schedule

The role is fly-in/fly-out, working on a regular rotational schedule of 2 weeks on and 2 weeks off.

Our Offer

Annual salary of \$155,000 - \$163,000. We provide a supportive culture that prides itself on teamwork, professionalism, and safety. Apply today for an exciting opportunity to contribute to the success of the business and reach your full potential.

Apply
